- ✓ No risk to check their rate
- ✓ Greater purchasing power
- ✓ No interest on principal if repaid in full within six months

How LendingUSA Compares

Credit Cards

It's commonplace to use credit cards to pay for large one-time expenses, but there are many reasons financing can be a smarter alternative. Financing keeps the credit card free for emergency expenses that may come up. Loans through LendingUSA also have fixed rates and terms, unlike a credit card, which can change from payment to payment.

Cash or Check

A few customers will simply choose to pay with what they have saved up. While this is always an option, paying with cash puts a strict limit on their budget, and they may not be able to come up with the amount they need to buy what they really want. LendingUSA can be used in these cases to help them finance a few additional services in exchange for a low monthly payment.
